

Proposal for sponsoring “Excellent Student Travel Award”

In addition to sponsor GW students, we propose to use 9703 sub-fund for sponsoring an annual travel award to support excellent senior undergraduate students from the Department of Chemical Physics in USTC.

The purpose of this award is to stimulate and support senior undergraduate students' participation in academic conferences in China and get exposed to the cutting edge of research in his/her field.

Each year, two undergraduate students will be selected to receive this award to support their registration and travel expenses to the conferences. The student is recommended but not required to present his/her research in such conferences.

Program information and application instructions for this award are listed below.

Eligibility

Applicants must be enrolled full-time in the undergraduate program of the department of Chemical Physics in USTC.

Application for Excellent Student Travel Award

1. The application consists of an extended abstract (no more than 2 pages) of their research, a CV, and a brief letter of support from the advisor (one or two paragraphs).
2. Decisions will be based on the quality and significance of the research, as well as the strength of the other materials. Students presenting their research in the conferences either in the format of poster or oral presentation will be given higher priorities. The awardees will be selected by the panel consisting of 3 professors from the department of Chemical Physics and 2 representatives from the class of 9703.

3. Each awardee will receive a certificate and \$300 (this amount may vary by year), which will be provided to the awardees through the department of Chemical Physics.
